THE HISTORIC DISTRICT AND LANDMARKS PRESERVATION COMMISSION APPLICATION

(Type or print neatly. Illegible applications will not be accepted.)

APPLICANT INFORMATION

Project Address: 104 Academy Street

Applicant Name: Eric Wu & Mitchell Lee

Applicant's Address: 104 Academy Street

City: Poughkeepsie

State: NY

Zip: 12601

Phone Number(s): 631 332 0404 312 888 5411

Property Owner (if not the applicant): _____
(If applicant is not the property owner, a letter of authorization from the owner MUST accompany the application.)

PROJECT CLASSIFICATION (Check all boxes that apply to the proposed project):

- ☐ New construction (construction of a new building, addition, garage, shed, swimming pool, etc.)
- ☒ Exterior alteration (includes, but is not limited to, all exterior changes to windows, doors, roof, paint colors, etc.)
- ☐ Landscaping (removing or adding significant plantings or landscape features such as driveways, sidewalks, fencing, retaining walls, patios, etc., that will alter the appearance of the property)
- ☐ Repair or replacement
- ☐ Restoration (railings, balconies, cornices, porches, etc.)
- ☐ Relocation
- ☐ Demolition
- ☐ Other: _____

WORK DESCRIPTION (Describe in detail all proposed work and indicate all materials to be used. Attached the manufacturer's product literature if available. Please keep in mind that the information you give to the Commission is the only description they will have of your design. It must illustrate what you have in mind very accurately. Attach additional sheets as necessary.

Our home at 104 Academy Street requires repair to the siding boards and repainting. Please see our attached power point deck illustrating our proposed paint colors that we would like to repaint our home in. In regards to the paint colors, we are making minor adjustments to the color scheme to match our historical home best. We would like to preserve the primary core colors if Light Gray instead of the current Medium Gray with Blue understones and have it paired with green shutters like the original shutters I have found in my basement and shed. I would like to keep the accent color of burgundy for the window trim etc.

Please note I do not plan to repaint the brick, the paint is destroying the brick as it is impermeable and the brick needs to breath. The original mortar, grout, and brick is quite literally disintegrating.

I plan to have the brick repaired and stripped clean as the original brick is beautiful and needs to be saved.

REQUIRED ATTACHMENTS TO SUBMIT WITH THE APPLICATION (Please submit "hard" copies of the following attachments in triplicate):

Recent Color Photos: Include photos of each side of the building (and site when landscaping changes are proposed) with close-ups of the specific area(s) to be changed.

Color chips, charts or color samples: If your plans include paint or stain, describe the color(s) and include a sample along with information on color placement. A good way to show the color scheme is to color one or more of the elevations.

Material Samples/Manufacturer's Brochures: Material samples (when possible), manufacturer's brochures, product literature or catalog pages.

Plot Plan: A plot plan must be included for new construction, additions, demolition, fencing and major landscaping projects. The plan must be drawn to scale, indicating property lines, existing structures and/or landscaping, their relationship to adjacent structures and any proposed changes.

Elevation drawings: Include all relevant views at the scale necessary to show building detail. The elevations should be accurately labeled with cardinal directions. The existing building should be included with as much detail as necessary to show how the old and the new relate to each other.

IMPORTANT: PLEASE NOTE THAT A DIGITAL/ELECTRONIC COPY OF ENTIRE SUBMISSION IS ALSO REQUIRED.

OWNER/APPLICANT SIGNATURE:

I hereby certify that I understand this application will not be accepted until all requested information has been supplied. I also understand that this application may require a site visit and/or public hearing by the City of Poughkeepsie Historic District and Landmarks Preservation Commission

RIDER TO HDLPC APPLICATION April 2024

Project: Repair and/or like replacement of deteriorated features

Intention is to repair where possible, as determined by carpenter after inspection. Replacement only where required due to significant deterioration. Much of the required work will require scaffolding or a lift, and has not yet been closely inspected by carpenter.

Trim components will be custom-fabricated using full-dimension lumber as needed to replicate deteriorated features. Some smaller components more susceptible to deterioration may be fabricated using Boral TruExterior material, <https://truexterior.com/product/trim/>, which is synthetic, workable, paintable. Carpenter has experience with it in restoration projects; highly recommends it for deterioration-prone areas.

Item numbers correspond to items disapproved by Commission on April 13, 2023, file PD#2023-031, Certificate of Appropriateness dated May 4, 2023.

5. Dormer—south side, center

Rebuild as double barrel, using east half as template. Double hung east window will be duplicated for west window. Trim to match that on existing dormers. Some elements subject to greater deterioration, such as plinth blocks, may be fabricated using Boral TruExterior material (see above), as determined in the field.
Paint to match existing trim

Coat roof with Acrymax—Forest Green

8. North tower

Install half-round gutters on all four sides to drain into trough gutter on east side of north wing. One downspout, to be located at southwest corner of tower; gutters to be pitched from northeast corner of tower in two directions: (1) west across the north side, then south along the west side; (2) south across the east side, then west along the south side. Gutters to be mounted on fascia.

5" half round copper **or** dark brown painted aluminum, depending on cost and availability. (4" is available only from one supplier, in California, and preliminary inquiry suggested that shipping cost would be two to three times the material cost.)

https://classicgutters.com/wp-content/uploads/2015/08/ClassicGutterSystems_Catalog.pdf (copper)

<https://bergerbp.com/products/roof-drainage/> (aluminum) (colors: Dark Bronze or Royal Brown, to be determined)

Copper patinates to dark brown. Most downspouts on house are brown aluminum, as replacing the previously stolen copper downspouts with more copper did not seem sensible. Brown aluminum is almost indistinguishable.

11. Front porch

floor—remove white marble tile, 9" x 9," with 2 1/8" black marble squares
rebuild subfloor, restore/replace marble. Will use best efforts to replicate existing pattern dimensions, but have not located material yet. Matching floor in vestibule (72 ± white tiles, plus black squares) could be salvaged and reinstalled on porch as part of modified design if original-dimension material is not located.

12. Side porch

replace steps; duplicate current design to extent possible. Boral TruExterior material may be appropriate for some components, as determined in the field. Cedar or teak stair treads possible, as determined in the field.

Paint to match existing trim

15. Cellar entrance

rebuild foundation

fabricate/install bulkhead doors. Boral TruExterior beadboard possible material.

INNOVATIONS ONLY FROM CLASSIC GUTTER SYSTEMS

NEW "I-BEAM STRONG"
DESIGN UNIQUE TO
CLASSIC GUTTER SYSTEMS

REDESIGNED BACK MAKES CAST
FASCIA BRACKET INSTALLATION
EASIER THAN EVER

In 2014, Classic Gutter Systems redesigned our line of Cast Fascia Mount Gutter Brackets with our new "I-Beam Strong" ridge design. The same time tested engineering principles that give industrial I-Beams their strength, are now incorporated into Classic Gutter System's Cast Fascia Brackets.

By adding an elegant "Shadow Line" bracing rib along the bottom of the Cast Fascia Bracket, we have more than doubled the strength of our already robust brackets, while keeping the beauty and style that are the hallmarks of Classic Gutter Systems product line.

Strength & Beauty! Now more than ever, Classic Gutter Systems is the right choice for half round gutters and half round gutter accessories for your home or business.

Also new this year is the redesigned back on Classic Gutter System's entire line of Cast Fascia Brackets.

Now, with the new back design on our Cast Fascia Brackets, you can attach the Fascia Brackets to a length of gutter while on the ground because the back screw slots are left exposed. This simple, yet ingenious innovation allows the Fascia Brackets and gutter to be assembled much faster, then lifted into place, and installed together as a single unit! Ensuring proper grading and correct installation will be easier and take less time than ever before!

The newly redesigned backs on all of our Cast Fascia Brackets, along with the new "I-Beam Strong" ridge design, are just the latest innovations from Classic Gutter Systems, the leader in premium half round gutter supplies.

NEW HALF ROUND & K-STYLE RADIUS GUTTER

*Radius Gutter
Available in Copper,
Aluminum & Galvalume
approximately 90" pieces
Half Round in 5", 6" & 8"

Specialized Kynar colors
available only upon
special request.

Adorn your home with Classic Gutter Systems. We have a wide range of colors, metals, and installation options to suit your every need. It's like 'jewelry for your home'.

TESTIMONIALS

I have been in the construction business for most of my life, learning from my dad. One of the most important things I learned from him was taking pride in my work, paying attention to detail and giving your customers a quality job both in labor and material. When my dad retired and I took over, his work ethic became mine. One product that we have used is Classic Gutters, because of the different choices in the size and material for the gutters and the options in brackets for hanging them right down to the downspouts. It is a quality product that you can depend on.

- *Tom Silva, Silva Brothers Construction Inc*
Reading, Massachusetts

Classic Gutters Systems are the suppliers of Top Quality Half Round Gutter and accessories. I have been installing their products for just over 10 years and have been very pleased with their quality. They are always looking for ways to improve their product and to help the installers. If you are thinking of half round gutters. Classic Gutter Systems is the only way to go.

- *Tim Coopmans (owner), Raymar Seamless*
Evestrough, Allegan, Michigan

Being from the heart of Cajun country, we get requests for a lot of French style components. We just love what Classic Gutter Systems brings to the table with all the casting, spherical endcaps, and of course the Fleur de Lis emblems. We feel

comfortable bidding any project because of the amazing choices they offer and quality and service that is second to none. It's like having a partner that cares about the results.

- *Brian Napier, Napier Sheet Metal*
Jeanerette, Louisiana

We've had lots of great relationships with companies as well as being a very blessed business ourselves. One particular company we've grown to really respect and appreciate is Classic Gutter Systems of Kalamazoo, MI. We've dealt with them approximately 15 years now. I admire the people for their personalities, curiosity, respectfulness and response to get back with us when needed. They are always looking for better ways and ideas to improve their products.

- *Jeff Sheets, Sheets Brothers Inc.*
Jefferson, North Carolina

D.Q.G. has been in business since 1985, specializing in the installation of half round gutters on some of the finest homes built on the East End of New York. We offer a wide variety of options in copper gutter brackets and colored aluminum items produced by Classic Gutter Systems. Their specialty brackets allow us to give the extra detail we are looking for to finish off the picture perfect look every homeowner strives for.

- *Richard Duda, D.Q.G. Inc.*
Holtsville, New York

Our company has installed custom half round gutters using Classic Gutter Systems for the past 7 years. It was so great to discover their products. The selection is diverse, to say the least. Their service is unmatched. A company that enjoys what they do and they do it well.

I truly could not be more pleased.

- *John Morton, Scott-Lee Guttering Company*
St. Louis, Missouri

From day one, we have found Classic Gutter Systems to be so helpful for all our projects. We have used them for 15 years. Their sales staff is very helpful and the shipping department does a nice job packaging all of their products. My own house has Classic Gutters on it!

- *Bill Worth, Worth Seamless Rain Gutters Inc.*
Derby, Vermont

We couldn't be more pleased with Classic Gutters. We have always admired and respected you as the quality people you are and the standards of excellence you maintain from ordering to receiving your products. We also want you to know how much we appreciate the great selection and quality of your products, as it brings distinction and value to our customer's homes.

- *Ralph and Dominick Palermo,*

TruExterior®

Siding & Trim

SUSTAINABILITY LOOKS BEAUTIFUL

TruExterior® Siding & Trim products are a sustainable, long-lasting, durable siding solution that offers the look of wood for undeniable curb appeal. Our products are manufactured using renewable energy credits and alternative energy sources. In addition, all wastewater is treated in state-of-the-art water management systems. What's good for the earth is good for our business.

- Sustainable properties of TruExterior products are a result of proprietary polymer chemistry and highly refined, recovered coal combustion products (fly ash), which are endorsed by the U.S. Green Building Council (USGBC) for use in construction materials.
- Contains a minimum of 70% recycled content—verified by SCS Global Services.
- Produced in a state-of-the-art LEED Silver certified facility and may qualify for LEED points.

TruExterior®

Siding & Trim

SO AUTHENTIC. SO RELIABLE.
NOTHING COMPARES.

TruExterior® Siding & Trim offers real workability that exceeds that of wood without sacrificing the look, feel and character of traditional wood products, creating a balance of performance and aesthetics that cannot be found with other man-made alternatives.

Phenomenal Performance. Remarkable Workability.

TruExterior Siding & Trim offers both a lasting look while eliminating the need for gluing, gapping and other cumbersome and costly installation techniques.

APPLICATION

- Designed for use in non-structural applications
- Suitable for ground and masonry contact
- Can be used in moisture-prone areas
- Installation is the same regardless of the season

TOOLS

- Installed using proven woodworking tools and methods
- Carbide-tipped blades and bits are recommended for a longer tool life

FASTENING

- Accepts common high-quality, exterior-grade fasteners that are suitable for the local environment
- Can be fastened close to the edge
- No need for pre-drilling
- No mushrooming

DURABILITY

- WUI listed
- No need to prime ends or field cuts
- Resists rot and termite attacks*
- No excessive swelling*

PAINTING

- TruExterior products come pre-primed and do require paint
- No need to prime end cuts
- Can be painted with any high-grade exterior paint when following the paint manufacturer's instructions
- Dimensionally stable, promoting long-lasting paint adhesions, even with dark colors*
- Virtually no moisture cycling, paint last longer than on wood*
- Traditional exterior-grade caulks and exterior-grade wood fillers are acceptable for filling nail holes

BEAUTY

- Tighter gaps, minimal movement—it will move less than PVC and vinyl
- True look of cedar, real architectural detail

WARRANTY

- 20 year limited warranty

Trim

Designed to be used in non-load-bearing applications, TruExterior Trim is suitable for ground and masonry contact and moisture-prone areas, which makes it ideal for exterior trim applications such as fascia, door trim, soffits, rake boards and a variety of other applications. There is no need to prime ends or field cuts. Plus, it can be painted any color. TruExterior Trim accepts common high-quality, exterior-grade fasteners and can be installed using standard woodworking tools and methods.

TruExterior Trim is reversible with woodgrain on one side and a smooth finish on the reverse. Available in a 16' length.

Reversible Smooth/Woodgrain Finish

BOARD-AND-BATTEN SIDING

Whether a Modern Farmhouse design or creating accents on a gable, board-and-batten is one of the hottest trends in home exterior design. And it's easy to create the board-and-batten look using just TruExterior Trim.

TruExterior Trim comes pre-primed and does require paint.

Beadboard

Including single and double profiles, TruExterior Beadboard is ideal for porch ceilings, soffits and decorative wall applications, and allows for a variety of installations, as it can be attached in either parallel or perpendicular directions.

Its “tongue-and-groove” design results in a clean look that can be reversed to offer a contemporary “V-groove” appearance.

Pictured: Beaded Pattern

Nominal Size	Actual Thickness (A)	Actual Width (B)	Reveal (C)
5/8 x 4	5/8"	3-15/32"	3-5/32"
5/8 x 6	5/8"	5-5/16"	4-15/16"

SINGLE BEADBOARD

Two distinct beaded patterns—4" and 6"—to suit the most popular design trends. Reversible for a contemporary “V-Groove” appearance.

Smooth Finish

Nominal Size	Actual Thickness (A)	Actual Width (B)	Reveal (C)
5/8 x 8	5/8"	6-9/16"	6-7/32"
5/8 x 12	5/8"	10-1/4"	9-29/32"

DOUBLE BEADBOARD

The same appearance as the single-profile products, but with twice the coverage. Reversible for a contemporary “V-Groove” appearance.

Smooth Finish

TruExterior Beadboard comes pre-primed and does require paint.

Accessories

TruExterior Siding & Trim Accessories make it easy to create polished, professional-looking siding and trim installations. Decorative yet functional, the poly-ash accessories are designed to go where other materials can't, making them the perfect complement to cedar, fiber cement and other traditional siding products, as they are suitable for ground and masonry contact.

SKIRT BOARD

Provides a decorative yet functional way to create the required clearance between siding and grade.

Available Finishes:

- Smooth
- Woodgrain

Nominal Size	Actual Thickness (A)	Actual Width (B)
1 x 6	3/4"	5-1/2"
1 x 8	3/4"	7-1/4"
5/4 x 6	1"	5-1/2"
5/4 x 8	1"	7-1/4"

WINDOW POCKET RABBETED TRIM

The rabbeted groove helps trim to sit flush over the window's nailing flange, eliminating the need for cuts or shims.

Available Finishes:

- Smooth
- Woodgrain

Nominal Size	Actual Thickness (A)	Actual Width (B)	Window Pocket (W' x W'')
5/4 x 4	1"	3-1/2"	3/16" x 1-7/8"
5/4 x 6	1"	5-1/2"	3/16" x 1-7/8"
5/4 x 8	1"	7-1/4"	3/16" x 1-7/8"

TruExterior Accessories come pre-primed and do require paint.

Nominal Size	Actual Thickness (A)	Actual Width (B)	Siding Pocket (S' x S'')
5/4 x 3	1"	2-1/2"	3/4" x 3/4"
5/4 x 4	1"	3-1/2"	3/4" x 3/4"
5/4 x 5	1"	4-1/2"	3/4" x 3/4"
5/4 x 6	1"	5-1/2"	3/4" x 3/4"
5/4 x 8	1"	7-1/4"	3/4" x 3/4"

SIDING POCKET RABBETED TRIM

Perfect for end wall terminations, this trim with a 3/4" siding pocket accepts all TruExterior Siding profiles.

Available Finishes:

- Smooth
- Woodgrain

Nominal Size	Actual Thickness (A)	Actual Width (B)	Window Pocket (W' x W'')	Siding Pocket (S' x S'')
5/4 x 4	1"	3-1/2"	3/16" x 1-7/8"	3/4" x 3/4"
5/4 x 6	1"	5-1/2"	3/16" x 1-7/8"	3/4" x 3/4"
5/4 x 8	1"	7-1/4"	3/16" x 1-7/8"	3/4" x 3/4"

WINDOW AND SIDING POCKET RABBETED TRIM

The ultimate accessory to build a neat, professional-looking window surround.

Available Finishes:

- Smooth
- Woodgrain

TruExterior Accessories come pre-primed and do require paint.

TruExterior Siding & Trim Reference Guide

SUSTAINABILITY

The sustainable properties of TruExterior Siding & Trim are a result of a combination of proprietary polymer chemistry and highly refined, recovered coal combustion products (fly ash), which are endorsed by the U.S. Green Building Council (USGBC) for use in construction materials.

- Contains a minimum of 70% recycled content—verified by SCS Global Services

CODE LISTINGS

TruExterior Siding & Trim have undergone rigorous internal and third-party testing to provide building officials, architects, contractors, specifiers, designers and others with reliable, high-performing products.

- California's Wildland-Urban Interface (WUI) listed—Beadboard and Trim
- Intertek CCRR-0300
