Laurie Sandow comments, City of Poughkeepsie Common Council meeting, June 3, 2025

When I was called to be first speaker at the Common Council meeting of June 3, rather than as the actual last speaker listed on the sign-up sheet, I noted that it was “amusing” for the Chair to be manipulating the order of speakers, rather than calling people in the order in which they signed up to speak.

I then proceeded as follows:

At the Common Council meeting of June 17, 2019, I was silenced and then arrested thanks to a rule fabricated by then-Chair Ann Finney, who declared that “campaigning” was not allowed. Finney was joined by Councilmembers Sarah Salem and Sarah Brannen. I was not campaigning in the first place, and no such rule existed, either then or now. What I’d actually been talking about was the then-current example of Sarah Salem skipping out of a forum for the position of Councilmember At-Large—in other words, an example of the Common Council’s favorite sport: avoiding civic responsibility. It took 12 court appearances before the court dismissed all charges in furtherance of justice (“...while this Court has never granted a Clayton Motion in the years serving its judicial term, dismissal of the charges in the furtherance of justice is warranted here. Indeed, denial of the motion would be such an abuse of discretion as to shock the conscience....”).

On February 20, 2024, Da’Ron Wilson had barely taken office before he illegally interrupted my public comments, not only manufacturing another non-existent Council rule, but also falsely asserting a selected Open Meetings Law extract in place of the City of Poughkeepsie’s own Charter. Wilson then had me escorted out of that Common Council meeting. In apparent pre-planned collusion with one or more parties, Wilson violated established Council, City Charter and NY State rules and law when he illegally signalled the acting Chamberlain to disable and silence audio from the public microphone. All this was witnessed by the Sergeants-at-Arms, who rejected Wilson’s attempt to press charges.

Why do I remind you of these incidents? Because for meeting after meeting, ad nauseam, Daniel Atonna and Sakima McClinton have used Council meetings to campaign for election

to the 8th Ward seat. The comedy of their campaigns is that they are two peas in a pod—perhaps at different ends of the political spectrum; perhaps not. Each boasts about being a lifelong Poughkeepsie resident, but carefully avoids acknowledging that neither showed up at Council meetings unless and until they got a paycheck to do so. Both want the 8th Ward seat, but during Megan Deichler's tenure in that seat, neither was ever active in calling out her failure to hold Ward meetings; her failure to show up and advocate for restoration of 8th Ward and Spratt Park bus service; both were silent concerning Deichler's fraud in vacating her Council seat; and until very recently, each chose varying shades of silence and/or absence at City and County meetings about 26 Oakley shelter plans.

McClinton was slotted into the 8th Ward vacancy thanks to scheming by members of the City Administration and Common Council who are also members of the Exempt Firemen's; to the illegal votes taken behind closed doors in Council caucus; and to the current Council's habit of undermining constituent and public knowledge, interest and involvement. Now either McClinton or Atonna will wind up taking the seat in the upcoming election. Neither will be a good or even adequate representative of 8th Ward residents. Predictably, neither McClinton nor Atonna—nor, in fact, any Councilmember other than Evan Menist—showed up at last night's Downtown Revitalization meeting, a funding program whose outcome will affect the lives of all Poughkeepsie City residents.

Whichever of the two gains the 8th Ward seat will make a perfect match for an Administration and Council that each do their work behind closed doors, that pick and choose between which laws they'll abide by and which laws they'll ignore, and which City organizations and residents they'll favor and which organizations and residents they'll ignore, all the while making little to no effort at bringing city residents as a whole into more active knowledge and participation in city life.

We live in a City where challenge, opportunity, and possibility abound. But unless and until we ever have a Council and Administration that's dedicated to practicing transparency, accountability and democracy, only the challenge, backroom deals, law-breaking and self-serving abuse of power will continue to rule the day.

**RESOLUTION
(R-25-51)**

SPONSORED BY CHAIRMAN WILSON, COUNCILMEMBER SHOOK, PATTERSON THOMPSON, HENRY, BROWN, MENIST, JAMES, GRANT

WHEREAS, by agreement dated July 3, 1997, the City of Poughkeepsie and St. Joseph's Rehabilitation Center Inc. ("St. Joseph's") agreed to an annual voluntary payment for 7 Fallkill Place, City of Poughkeepsie (the "Property") as St. Joseph's use of the Property would be tax exempt under Real Property Tax Law Section 420-a (a copy of the agreement is annexed hereto as Exhibit A); and

WHEREAS, St. Joseph's sold the property in 2025 to Access Supports for Living Inc.; and

WHEREAS, during the process of closing title, the 1997 Agreement was discovered and St. Joseph's has requested that the agreement be terminated given the transfer of title; and

WHEREAS, upon investigation and due to mutual misunderstandings, the last payment under the agreement appears to have been made in 2008; and

WHEREAS, the City would be barred under the statute of limitations for contracts from seeking payments older than six (6) years. However, recovering that amount will require the filing of a legal action to collect time, an exercise that costs time and money;

WHEREAS, pursuant to Real Property Tax Law Section 1184(7-a), the Common Council may, by resolution, waive interest, penalties and fees for deployed military members that would otherwise be imposed upon the property provided:

1. The financial hardship was caused in substantial part by the owner's having been ordered to active military duty in the United States armed forces including the reserve components of such armed forces; and
2. The deployment lasted for at least six contiguous months, or the owner was killed in action during such activation; and
3. The owner provides satisfactory written evidence of the above

WHEREAS, the owner of 12 Hooker Avenue has submitted documentation that he was actively deployed from June 2024 through April 2025 and that he did not have access to his mail during that time; and

WHEREAS, the owner of 12 Hooker Avenue did pay the taxes online on April 29, 2025, thereby stopping the accrual of further interest pending the Common Council's review of this request; and

NOW, THEREFORE, BE IT RESOLVED that the Common Council hereby approves the waiver of interest, penalties and fees incurred by the owner of 12 Hooker Avenue, Poughkeepsie, NY (Tax grid #131300-6161-22-160896) on the 2025 Property Tax Bill for the reasons stated herein.

- 5. R-25-54**, Resolution Approving Retainer Agreement with Wang Hecker, LLP for the Purpose of Commencing and Prosecuting an Action Against Dutchess County

CITY OF POUGHKEEPSIE

**RESOLUTION APPROVING RETAINER AGREEMENT WITH WANG HECKER, LLP
(R-25-54)**

**SPONSORED BY CHAIRMAN WILSON, COUNCILMEMBER SHOOK, PATTERSON
THOMPSON, HENRY, MENIST, BROWN, JAMES, GRANT AND MCCLINTON**

WHEREAS, the Common Council of the City of Poughkeepsie has previously indicated its intent to file a lawsuit against Dutchess County regarding the establishment of a homeless shelter (also referred to as a Housing Support Center) at 26 Oakley Street, Poughkeepsie, NY; and

WHEREAS, the Northside of the City of Poughkeepsie has been overburdened by Dutchess County facilities including the recent expansion of the County jail in a residential neighborhood as well as a long history of discriminatory planning decisions; and

WHEREAS, the business community on and around Oakley Street has recently begun flourishing again; and

WHEREAS, during 2024 and 2025, the County and the City spent countless hours negotiating the terms of a letter of intent that would see 26 Oakley Street limited to

families and up to 20 single women as opposed to the original County plan of a facility that would provide up to 120 beds for single men and women; and

WHEREAS, on May 2, 2025, the County Executive advised the Mayor that the majority of the Dutchess County Legislature had indicated it would not support the negotiated letter of intent, and that it had all along intended to proceed with the original plan of a 120-bed shelter for single individuals; and

WHEREAS, by this action, the County has confirmed that it does not view the City of Poughkeepsie as a partner in efforts to address the County wide housing crisis and homelessness but instead sees the City as a politically convenient area to site nearly every social service effort regardless of the burden it places on City residents and businesses; and

WHEREAS, the County has not demonstrated its ability to manage supportive services in the current temporary PODs housing but, yet, plans to create a permanent shelter facility, and

WHEREAS, the County wishes to ignore the discriminatory and detrimental impacts of centralizing these social services in a neighborhood with one of the largest populations of both minorities and the economically disadvantaged within the County, but the City cannot stand by while the County continues to force the City's already overburdened Northside to bear the full weight of serving the area's most vulnerable rather than asking neighboring towns and municipalities to do their fair share.

NOW THEREFORE, BE IT RESOLVED by the City of Poughkeepsie Common Council that:

1. The retention of Wang Hecker LLP as outside counsel is hereby authorized for the purpose of commencing and prosecuting an action in a court of appropriate jurisdiction against Dutchess County in accordance with the attached retainer agreement.
2. This Resolution shall be effective immediately upon its adoption.

Poughkeepsie Children's Cabinet Fiscal Map - FY19

Investment in Children and Youth (0-19)

\$61M

The Poughkeepsie Children's Cabinet Fiscal Map is a comprehensive analysis of public and philanthropic investments in youth and children in Poughkeepsie. It is designed to be a resource for city leaders and youth services stakeholders seeking to visualize funding streams and align spending with priorities. In addition, nonprofits, residents, and community groups are encouraged to use the resource to better understand investments in youth and children. Through a data-driven process, the Poughkeepsie Children's Cabinet, in partnership with the national nonprofit Children's Funding Project, worked with public agencies, philanthropic donors, and nonprofits to obtain fiscal data related to youth, children and relevant family services. Fiscal data was organized into different categories to provide a more detailed analysis. For more information, please see the Appendix (Page 4). *This project was made possible through the generous support of the Poughkeepsie Alliance.*

How to Use: To take full advantage of the fiscal map's data visualization software, move your cursor and click on the segments of the data visualization elements (i.e. chart, pie, table) to view the specific information for that segment. Right-clicking over different elements and segments will provide additional data visualization options.

SPONSORED BY CHAIRMAN WILSON, COUNCILMEMBER SHOOK, PATTERSON THOMPSON, BROWN, JAMES AND GRANT

NOW, THEREFORE, BE IT RESOLVED, that the Common Council hereby approves the proposed Right of Way Regulations as shown on Exhibit A, annexed hereto and made a part hereof. Amendments to the regulations may be made by amendment of the Common Council.

SECONDED BY _____.

CITY OF POUGHKEEPSIE RIGHT OF WAY REGULATIONS

Whereas, Chapter 15 of the Code of the City of Poughkeepsie authorizes the City and the Commissioner of Public Works (also referred to as the “Superintendent of Public Works”) to promulgate written regulations as may be necessary for the implementation and enforcement of Chapter 15 “Streets and Sidewalks”

Now, the City and Commissioner of Public Works promulgate the following regulations for all work within the City of Poughkeepsie Right-of-Way or on City lands and that such work should conform to the details and specifications included herein.

City Right-of-Way Regulations

All work within the City Right of Way or on City lands should conform to the attached details and specifications.

For the purposes of these rules and regulations "Utility" or “Utilties” shall mean the cables, terminals, conductors, and other fixtures necessary for a public utility to transmit electric, telephone, cable television or other telecommunication service, and any wireless telecommunications facility and any underground gas transmission lines and any underground water and sewer mains

Roadway Excavations shall conform to the following guidelines:

A. All Street Opening Permit applications must be accompanied by a plan subject to review and approval by the Commissioner of Public Works and shall be subject to the following minimum requirements:

- (1) Excavations are not permitted between November 15 to April 1 except in the case of emergencies to be decided by the Commissioner of Public Works in his sole reasonable discretion.
- (2) All excavations shall be backfilled with controlled density backfill material (K-Krete), up to the bottom of the lowest course of pavement.
- (3) If a new patch is to be made where there is an existing patch, the entire top course of the existing patch plus two feet on all sides shall be removed and replaced in full.
- (4) Restoration of the top course of pavement for openings running parallel to the center line of the street shall be curb to curb.
- (5) If the new work is to be restored with multiple patches and the area of disturbance is 20% or greater of the length of a street block multiplied by one foot, then the entire road in the block shall be resurfaced curb to curb. If the area of disturbance is less than 20%, then restoration from the curb to the center line may be sufficient at the discretion of the Engineer.

(6) If the age of the pavement is less than 5 years, the entire road in the block shall be resurfaced from curb to curb.

(7) Restoration of the top course of pavement for openings or patches running perpendicular to the center line of the street shall extend at least two feet outside all sides of the opening.

(8) Any new patch or restoration of pavement shall have the same contour as the adjacent road surface.

(9) If the street pavement is asphalt, the replacement shall be asphalt. The existing pavement shall be saw-cut to its base or binder course and shall be restored to 12 inches wider than the opening. The existing top course shall be saw-cut and restored to 24 inches wider than the opening. A binder course of 4 1/2 inches and a top course of 1 1/2 inches shall be required. The seam between the new and existing pavement shall be sealed with hot asphaltic cement.

(10) If the street pavement is concrete, at the surface or below an asphalt overlay, the replacement shall be concrete, with an asphalt overlay where necessary to match existing pavement surface. The existing concrete slab shall be saw-cut to its base, drilled and doweled to a minimum depth of 12 inches with the dowels two feet on center and anchored with epoxy. The new concrete slab shall extend to a minimum of 12 inches outside the trench. If any portion of a panel of concrete is disturbed, then the entire panel must be replaced. The seam shall be sealed with hot asphaltic cement.

(11) All pavement disturbances shall be made by clean, straight saw-cuts.

(12) Plates should be avoided. However, if Plates cannot be avoided, then the Plates must be securely bolted or wedged and, if in place between November 15 and April 1 pursuant to an emergency permit granted by the Commissioner of Public Works, the plates must be recessed and flushed to the adjacent pavement. In no circumstance shall the plates be in excess of one inch above the pavement.

B. Unless it is an emergency, work shall be restricted to 8:00 a.m. to 6:00 p.m., unless authorized by permit to other times.

C. Inspections. All work shall be done in a good and workman-like manner, and may be inspected by the Engineer:

(1) Standard inspection: to be conducted for installations, repairs, or new connections to any utilities. All inspections, outside of re-inspections, shall be included as part of the inspection fee.

(2) Major/emergency inspection: to be conducted at excavation; at compaction of bedding of trench; prior to and during backfill of utility lines and road restoration. For major permits, the initial and final inspections shall be included as part of the inspection

fee. For emergency permits, a fee for each inspection shall be required.

(3) Progress inspection. For all permit types, the Engineer shall have the ability to request an inspection at any time during the project. A fee for each progress inspection shall be required.

(4) Re-inspection: should a regular inspection not occur due to a delay caused by the permittee or if the Engineer determines that the work has not been done correctly, an additional fee for a reinspection and each additional reinspection.

D. Security; maintenance and protection of traffic plan.

(1) The permittee shall erect and maintain suitable barricades and fences around all excavations until all of the work is completed, as well as arrange for the work to be done in such a manner so as to cause a minimum of inconvenience and delay to vehicular and pedestrian traffic.

(2) The permittee shall provide around open excavations and road depressions greater than two inches from structures warning flags or signs, suitably lighted flashing lights especially during nighttime, and qualified flaggers in such number as deemed necessary by the City, in accordance with the Federal Highway Administration Manual on Uniform Traffic Control Devices and New York State Supplement.

(3) Where the free flow of traffic is interfered with during work hours, the permittee shall designate competent persons to direct and expedite traffic by means of lights or flags.

(4) Unless otherwise authorized by the City, vehicular traffic shall be maintained at all times during the progress of the work being performed under the permit. If vehicular traffic cannot be maintained through the work area, then a maintenance and protection of traffic plan must be submitted to the City for review and approval prior to construction. Any necessary detour signs must be posted prior to the start of construction.

(5) The aforementioned security and protective measures shall be performed in accordance with the Federal Highway Administration Manual on Uniform Traffic Control Devices and New York State Supplement.

E. Protection of existing structures. It shall be the duty of the person, firm or corporation by whom any street opening is to be made for any purpose whatsoever to notify the operators of all underground facilities 48 hours prior to commencing any work within the City of Poughkeepsie in conformance with 16 NYCRR Part 753.

F. Damage of existing improvements. All damage done to existing improvements during the progress of the excavation work shall be repaired by the permittee. Materials for such repair shall conform to the requirements of any applicable code or ordinance.

G. The permittee shall keep the permit and a copy of the plan at the location for which the permit was granted at all times while such work is in progress and show such permit or plan upon

demand by the City.

H. The Police Department, Fire Department, Emergency Medical Services, and the shall be provided a copy of the permit and all approved plans by the Commissioner of Public Works.

J. Any permittee shall maintain the persons and equipment necessary to allow it to respond immediately to any condition of or relating to the Utility located in the streets presenting a hazard to persons or property.

K. The City does not guarantee it has the authority necessary to permit any permittee to place or maintain Utilities in the streets at any site. A permittee is responsible for ensuring it has all authorizations required to place Utilities at a particular location. Permits improperly granted may be revoked. A permittee assumes all risks associated with placement of Utilities in the streets.

L. A permittee shall place and maintain its Utilities to avoid undue adverse impacts to adjacent properties and/or uses that may arise from the construction, operation, maintenance, modification, and removal of the Utility and is responsible for restoring property damages to their condition prior to the Utility's installation, except as state law otherwise provides.

M. All Utilities shall be neatly placed and maintained, with unused Utilities, or unused portions thereof, removed, so that the burden and visual impact of the Utilities in the streets is minimized. Without limitation, it is not permissible to leave wires hanging or leave disconnected cabling and conduits on the sides of supporting structures in the streets.

N. Use by any permittee is secondary to use of the streets by vehicular and pedestrian traffic, and no Utility may be placed in a manner that interferes with such uses. Without limitation, Utilities may not be placed or maintained at locations that present a hazard to pedestrians or vehicular traffic (whether physically or by obstructing sight lines); that violate ADA requirements; or that overhang any street, sidewalk, ramp or driveway, unless the City has specifically approved that placement.

O. Except as otherwise provided by state law, a permittee must promptly move, alter, temporarily relocate, or remove its Utilities as necessary for any public project, including, but not limited to, installation of any publicly owned utility, structure or facility, street widening or regrading, widening or installation of sidewalks, or as part of an undergrounding project. If a permittee fails to move, alter, temporarily relocate, or remove its Utilities by a time specified by the City, the City may cause the Utility to be removed and charge the permittee for the cost thereof, which cost shall be recoverable against the bond.

P. Except as otherwise provided by state law, a permittee must promptly, and at no charge to the City, move, alter, or temporarily relocate its Utilities as necessary to permit use of the streets by other franchised entities or entities holding permits from the City that require such movement, alteration or relocation. A permittee may charge the entity that causes such work to be performed for the cost of the work, except as may otherwise be provided by applicable laws or contract

Q. Permissions granted by the City to occupy the streets shall not in any event constitute an easement on or an encumbrance against any public right-of-way. No right, title, or interest in the streets, or any part thereof, shall vest or accrue in a permittee by reason of issuance of such permissions.

R. The site and the Utilities, including, but not limited to, all landscaping, fencing, and related equipment, must be maintained in a neat and clean manner and in accordance with all approved plans. All graffiti on a Utility must be removed at the sole expense of the permittee within 48 hours after notification from the City.

S. Any permittee must maintain complete and accurate copies of all applications filed, and all permits and other regulatory approvals issued in connection with the construction, and maintain full and complete records identifying and showing the location of Utilities of the permittee in the streets. Copies of the record shall be promptly provided to the City on request, unless production of the records is prohibited by law. Maps of the Utilities must be provided in a format that will permit the information to be incorporated in the City's GIS System.
